# 8.04 XPERT BITUSEAL Thixotropic, Non-Slump Rubberized Bitumen Sealant

## PRODUCT DESCRIPTION

XPERT BITUSEAL is a unique type of trowel applied sealant and adhesive. Due to the nature of the product, it may also be used for the cold bonding of roofing felt.

#### TYPICAL PROPERTIES

Form: Semi-stiff paste Specific Gravity: 1.2 - 1.3 Solids Content: 80% min

#### **USES**

- · Used for the cold bonding of roofing felt.
- Used in roofing where sealing and pointing horizontal chases for waterproofing materials, flashing and guttering, etc. is required.

#### APPLICATIONS & ADVANTAGES

- Provides an impervious, flexible, malleable seal with excellent slump resistance.
- · Excellent slump resistance.
- · Versatile and economical.
- · Maximum adhesion with high degree of flexibility.

# **INSTRUCTION FOR USE**

Surface Preparation: All surfaces should be clean, dry and free from all dirt, dust and loosely adhering materials. Remove all oil and grease contamination.

Priming: Porous surfaces such as concrete, stone, brickwork, asphalt and timber should be primed with XPERT Gard 400. Allow primer to become touch dry prior to sealant application.

Application: This may be applied by trowel, spatula or three-knot roofing brush. In vertical joints, apply sealant from the bottom upwards ensuring the entire volume of the joint is filled. Compress the sealant into the joint to give complete contact with joint surfaces. The use of a little cleaning solvent will help facilitate the smoothing process. Any masking tape used to protect adjacent surfaces should be removed immediately after tooling.

### PACKAGING & STORAGE

XPERT BITUSEAL is available in 18kgs and it has a minimum shelf life of 12 months provided it is stored under cover, out of direct sunlight.

# **HEALTH & SAFETY PRECAUTIONS**

XPERT BITUSEAL does not fall into the hazard classifications of current regulations. However, it should not be swallowed or allowed to come into contact with skin and eyes.

Suitable protective gloves and goggles should be worn. Splashes on the skin should be removed with water. In case of contact with eyes rinse immediately with plenty of water and seek medical advice.
